Profile

Full Stack Software Developer with experience in Ruby and JavaScript frameworks, HTML, CSS, WordPress, and a background in legal and banking sectors. I enjoy dealing with complex and original ideas while working with like-minded people in a creative and stimulating environment. Above all, I am passionate about programming and learning new tools. When not coding, I enjoy connecting with people and exploring the surroundings with my camera.

TECHNICAL PROJECTS

Lawyered – [GitHub](#) | [Demo](#)

A platform that allows users to find suitable lawyers for their needs

- Developed a Rails API backend with endpoints for clients, lawyers, and appointments
- Utilised REST architecture and PostgreSQL to populate and maintain data for both lawyers and clients
- Implemented user interface employing React with Material UI, Semantic UI, and vanilla CSS
- Employed JSON Web Tokens and localStorage to store encrypted user information client-side

Jolie – [GitHub](#) | [Demo](#)

An e-commerce marketplace that allows users to browse hundreds of items and shop for clothes and accessories

- Built Rails API backend, allowing admins to manage their stores and customers to manage their baskets via RESTful architecture and CRUD operations
- Designed user interface by using React, Bootstrap, CSS

TECHNICAL SKILLS

Ruby, Rails, SQL, JavaScript, React, Redux, Nodejs, Sinatra, APIs, Capybara, RSpec, MVC design, REST architecture, Postgres, MongoDB, SQL, JSON, git, CSS, Bootstrap, Semantic UI, Material UI, HTML, WordPress

EMPLOYMENT HISTORY

Feb 2018 – Feb 2019 **Business Analyst at Barclays Bank UK – London**

- I supported clients with their day-to-day transactions, matching their needs with Barclays' main financial services such as transferring funds, exchanging currencies, borrowing capital, and so on
- I enhanced my social intelligence by developing real relationships with customers, premier and business clients in order to gain their trust and confidence and to get a clear picture of their individual needs

Jun 2017 – Apr 2018 **NovoVape Ltd, CEO & Co-founder – London**

- I co-founded NovoVape Ltd, an e-commerce provider of e-cigarettes, opening in Italy and in the UK
- I created the website, dealing with design and web development. I was able to work on my own as well as leading teams of experts on the matter while dealing with both suppliers and customers
- I drafted NovoVape's business plan and contributed to its USP, executive summary, market strategy and cash-flow

Feb 2017 – Mar 2017 **Fortune Law (Commercial Solicitor), Paralegal – London**

- Expanded my research abilities by working on different legal topics including banking, contract, and insolvency
- Improved attention to detail by drafting advice letters and emails to both clients and partners
- Enhanced my communication skills by taking calls from both existing and potential clients and log the enquiries onto our internal databases in a clear manner

EDUCATION

Mar 2019 – June 2019 **Flatiron School, London(UK) – In-person Software Engineering Bootcamp**
Languages and Frameworks include: JavaScript, React, Ruby, Rails, APIs, Capybara, RSpec, MVC design, REST architecture, Postgres, SQL, JSON, git, GitHub, CSS
